## Cancellations, Rescheduling, Lateness, & Missed Appointments

If you need to cancel or reschedule an appointment, please notify your therapist as far in advance as possible.

You will be charged for all scheduled appointments unless you provide one week notice of cancellation or rescheduling. Missed appointments or late cancellations (with less than one week notice), for any reason, are also charged in full.

If you are going to be late for an appointment, please notify your therapist as soon as possible so they know to wait for you.

If you are late for your appointment and you do not contact your therapist within 15 minutes of your scheduled appointment time your therapist will stop waiting for you.

If you arrive late, your session will still end at the regularly-appointed time.
